

# Dr. Vincent Windrow

# TEN KEYS TO STUDENT SUCCESS

---

Get started and get to  
going!

Student Success is  
born and nurtured in  
the classroom!

The results will take time but you cannot afford to take your time.

Customize what  
worked elsewhere  
and shape it to fit  
your context.

Decisions are  
data-informed and  
not necessarily  
data-driven.

Employ both high tech and high touch strategies to maximize reach.

To maximize  
momentum and  
synergy, develop  
connective projects.

Be proud of the  
students you have  
and commit to  
serving them.

Student Success  
includes all, involves  
all and invites all.

Your most effective initiatives will affect the most of your students.

In order to have  
something else,  
something else must  
be done.
