

## Conference Registration Is Open!

Don't miss this year's NADE conference in Atlanta. Specific details are in the [Call to Conference](#).

Here are highlights:

- Keynote Speakers -- Carolyn Denard and Alex Madva
  - Denard is the Associate Provost for Student Success and Professor of English at Georgia College and State University. Through in-service teaching workshops and departmental and professional conference presentations, she has shared with faculty ways to shape their pedagogy to help students become confident and independent learners.
  - Madva is a philosophy professor and works in collaborative empirical research. His research centers on the questions that developments in social psychology raise for philosophy of mind, philosophy of race and feminism, and applied ethics, especially prejudice and discrimination.
- Over 200 concurrent and poster sessions (program links below)
- Beautiful hotel accommodations at the Atlanta Marriott Marquis
- Numerous local tours available after conference hours

We can't wait to have you join us in Atlanta, Georgia, for this wonderful conference!

## 3rd National Math Summit

This year, AMATYC hosted the bi-annual National Math Summit which focuses on helping students in the first two years of math. More than 230 people attended the

Summit on November 12-13 in Orlando, Florida. Feedback indicates it was a huge success. NADE partners with AMATYC, Paul Nolting, the NCDE, the Dana Center, Carnegie Math Pathways/WestEd, and the MAA (Mathematical Association of America) to offer this event every two years. We appreciate the support of NADE members who were in attendance, as well as those who made presentations on behalf of NADE. The presentations, selected based on their session evaluations at NADE 2018, included:

- “Flipping the Equation: Transforming Monotony into Meaningful Math Experiences through Active Learning Strategies” by Andrew Sebok (Texas Southmost College)
  - “Throwing Out the Textbook: Creating Math Courses Using Open-Source Educational Resources” by Mary Monroe-Ellis and Suzanne Etheridge (Pellissippi State Community College)
  - “Increasing Active Learning in Mathematics using Daily Mathstarters, Math Games, and Exit Tickets” by Robin Cook (Community College of the District of Columbia)
-

Shiny Verghese and Caroline Flaherty, members of NADE from the Gulf University for Science and Technology, Kuwait, were speakers at the TEDx conference conducted at GUST, Kuwait. They spoke passionately about how they believe that all students have the capability to master any subject, including math, which most students dislike. They had fun as they engaged their audience with simple math tricks while inspiring young minds to follow their dreams!

## Writing Network Report

## by Julia Laffoon-Jackson

Formerly called the NADE English/Writing/ESL Special Professional Interest Network or SPIN (Whew! What a mouthful!), we are now called simply the NADE Writing Network. We are professionals who teach developmental writing and, more often the case now, co-requisite college-level and developmental writing. Whether we teach at a community college, a university, or another type of institution, we have the same goal in mind, adapted from the NADE motto: to prepare adult learners for college-level writing, to help them advance through college-level writing, and to help them excel in the writings they will need to do throughout college and in life.

If that is your goal as well, please join by first selecting the Writing Network on your NADE account and then emailing me at [Julia.Laffoon@kctcs.edu](mailto:Julia.Laffoon@kctcs.edu) with your name, email address, institution, and institutional address. If you received an email from me on November 14 requesting article submissions for our upcoming fall newsletter, you are already a member.

As members of the NADE Writing Network, our greatest opportunity for networking face-to-face occurs at the annual NADE conference. Make plans now to join us in Atlanta, Georgia, March 6-9, 2019. Registration is open, and we would love to see you there.

## This Is Why We Do What We Do

On November 9th at the Mississippi chapter conference, a student award was given to a student who had completed developmental coursework and continued to achieve in additional coursework. Grenecia Evans was recognized for her efforts and was nominated by Melissa Woods, one of her instructors and a member of NADE.

Grenecia gave a very moving acceptance speech where she explained that since being held back in 1st grade, she had always struggled with having confidence in her school work. She explained how Ms. Woods, along with other instructors who were also present, helped her gain confidence and believe in herself. As a result, she made A's and B's throughout her developmental coursework. Grenecia's father, brother, and grandmother were also present for the award presentation. The words of this student and the appreciation shown by her family were a wonderful reminder of why we do what we do.

## **Share Your Success Stories!** **by Jennifer Hulehan, NADE Marketing Chair**

Our students and their successes are often the best tool we have for showing how important developmental education is and how well it can work. And that's something we need to do now more than ever. There are plenty of people out there bashing "remediation" (and mistaking remediation for developmental education). We cannot allow them to tell our story—our students' stories—for us. The NADE Marketing Committee, as part of a broader effort by NADE, wants to use social media to help tell those stories. A picture is worth a thousand words—so please consider helping us by sending photos with success stories to Jennifer Hulehan at [jbeattie@tctc.edu](mailto:jbeattie@tctc.edu). Bonus points for student quotes! Together, we can change the conversation about developmental education at our schools, in our state, and across the country. We change lives—let's show the world.
