February 19, 2020
3:00 p.m. Eastern

Presented by Dr. Katie Hern

Title: California Transformation: Lessons for Other States on
Placement Reform and Co-Requisite Models

Developmental education is being transformed across the largest system of higher education in the United States. Recent legislation requires California's 115 community colleges to use high school grades to place students into the English and math courses where they have the best chance of completing transferable, college-level courses within one year. Virtually all students have the right to bypass stand-alone developmental prerequisites and begin directly in college-level courses, and colleges are replacing traditional remedial prerequisites with corequisite models in which students enroll directly in college-level courses with concurrent support. This webinar will feature student stories and early results from colleges making these changes, as well as research and implementation details that participants can consider for their own contexts.

NEW

STUDENT CAREER SERVICES NETWORK

The NOSS Executive Board has approved a NEW Network, Student Career Services, and **is looking for a chair.**

The purpose of the Student Career Services Network is to provide support for members who are involved in direct contact with students to provide Career Services information and activities. These Career Services should be designed to enhance the student experience in choosing a career, mapping an educational plan to achieve a successful career goal, and may include Career Services skills to explore careers, build resumes, review resumes, write cover letters and thank you letters, prepare for interviews, conduct mock interviews, prepare for transferring to a 4-year institution, and attend Career Fairs and Transfer Fairs as well as other services and activities shared with the group through networking.

Opportunities will be provided for members to meet and network through virtual meetings, and correspondence to share current services being used as well as explore new ones to enhance the student experience. If you are interested in serving as chair of this Network, please contact our current President-Elect at psaxon@thenoss.org.

CONSIDER PUBLISHING IN PRACTITIONER TO PRACTITIONER!

Do you have a best practice you'd like to share, but don't have the time to write a formal research paper?

Please consider sharing your idea and have it published in NOSS' Practitioner to Practitioner. NOSS encourages any practice that promotes student success! Guidelines can be found at thenoss.org, and then click onto library, Practitioner to Practitioner.

The goal of P-to-P is for practitioners to share and promote exciting programs, services, professional development opportunities, workshops, placement changes, courses, advising practices, student organizations, or summer programs – just some examples that have shown success.

Share. Together we can.
