MARK YOUR CALENDARS! WEBINAR WITH DR. ROBIN OZZ

April 12, 2019
2:00 p.m. Eastern

Topic: Guided Pathways

When done poorly, Guided Pathways disempowers faculty, restricts students, and focuses education on "getting them through quick and cheap." When done correctly, Guided Pathways integrates academic and student services together in a coherent and intentional system of curricular and co-curricular experiences and supports that match students' interests and goals and better prepare them for attaining their educational goals. In addition, the process can be the most profound form of professional development college employees have ever experienced. This webinar will discuss the benefits of doing Guided Pathways the right way.
