NEW

The NOSS Executive Board has approved a NEW Network, Student Career Services, and **is looking for a chair.**

The purpose of the Student Career Services Network is to provide support for members who are involved in direct contact with students to provide Career Services information and activities. These Career Services should be designed to enhance the student experience in choosing a career, mapping an educational plan to achieve a successful career goal, and may include Career Services skills to explore careers, build resumes, review resumes, write cover letters and thank you letters, prepare for interviews, conduct mock interviews, prepare for transferring to a 4-year institution, and attend Career Fairs and Transfer Fairs as well as other services and activities shared with the group through networking.

Opportunities will be provided for members to meet and network through virtual meetings, and correspondence to share current services being used as well as explore new ones to enhance the student experience. CONSIDER PUBLISHING IN PRACTITIONER TO PRACTITIONER!

Do you have a best practice you'd like to share, but don't have the time to write a formal research paper?

Please consider sharing your idea and have it published in NOSS' Practitioner to Practitioner. NOSS encourages any practice that promotes student success! Guidelines can be found at thenoss.org, and then click onto library, Practitioner to Practitioner.

The goal of P-to-P is for practitioners to share and promote exciting programs, services, professional development opportunities, workshops, placement changes, courses, advising practices, student organizations, or summer programs – just some examples that have shown success.

Share. Together we can.

Submit your article to: practitioner@thenoss.org
